Its effect upon the patient is most marked, and differ from that of most me beliefs recommended for the same complaints, in the following particulars.

1st—It never irritates the arrains it should stathed-never dries up the cough, leaving the cause intenched—but first loosens the cough, increase the expectantion or spitting, then removes the cause, cradienting it completely from the system, when as a marier of course, the cough coust, and the patient is well.

2d-It never produces confermed in the consumptive pa-tient—on the centrary, it has a laxitive effect and is a moderate anharite. We dely the world to preduce a case of continuous so circulated but that in the or three weeks tha patient in the mean time having croper reduct to derly it will causely remove is, and produce a healthy action of the bowels.

31-It does not produce a drawer of the skin, but is a powerful promoter of sensible and increasive prespiration, thus expelling, by the posses of the skin, three nameous fir-ids and impurities of the Break, the recentlent of which is the symmetric is the sure precursor of diseases, significa-AND DEATH.

We do not present that DOWN'S EXAXIR is a specific for sit the ule that flesh is heir to, but we do say, and can confirm by incontestable existence, that for CONSUMPTION,

And all diseases of the lange the liver and the pulmonary organs, it is unrivaled—anequaled. Henomens by it have been matched from an entiresty unave, and hundreds who delayed too long its un, have found, in the advanced state of their disease, that include show suffering which they had validly sought from every other source.
